IMS COMPANIES ACQUIRES AMCO ENGINEERING COMPANY

IMS Companies LLC (Innovative Manufacturing Solutions) of Elk Grove Village, IL - the parent company of a group of four contract manufacturing operations involved in providing custom metal stampings, sheet metal fabrications, specialized machining and custom wire harness and cable assemblies to OEMs in the Automotive, Electronics, Appliance and Medical Industries - announces the acquisition of **AMCO Engineering Company** effective September 8, 2005.

AMCO Engineering Company designs and manufactures cabinets and modular enclosures for the Electronics industry. **AMCO** has been in business for over 60 years growing into a major supplier to customers such as NASA, the U.S. military and leading telecom and electronics industry OEMs. **AMCO's** product line of modular enclosures includes single and multi consoles, workstations, LAN/Data cabinets and shielded and seismic enclosures

AMCO joins the other companies in the **IMS Companies** family including; **IMS Buhrke Industries**, a high volume progressive die metal stamped, **IMS EXTON**, sheet metal fabrications and assemblies, **IMS Global Gear & Machining**, contract machining and sub assembly and **IMS Electrol**, wire harnesses, cable and electro-mechanical assemblies
